

Pratheesa Sureshkumaran

Computer Systems Engineering Undergraduate

SLIIT University, Colombo, Sri Lanka

0775890102 | pratheesa2@gmail.com | linkedin.com/in/pratheesa-sureshkumaran

Profile

Computer Systems Engineering undergraduate at SLIIT with hands-on experience in networking, Linux-based server configuration, DNS setup, virtualized infrastructure, and TCP/IP socket programming. Built practical academic projects involving VirtualBox-based network deployment, BIND9 DNS configuration, and client-server communication. Currently expanding skills in cloud, DevOps, and system administration. Seeking an internship or junior role in networking, infrastructure, or systems support.

Education

BSc (Hons) Computer Systems Engineering 2024–2027

SLIIT – Sri Lanka Institute of Information Technology

G.C.E. Advanced Level – Physical Science Stream 2021

Sri Shanmuga Hindu Ladies College

Technical Skills

Networking: TCP/IP, DNS, BIND9, Socket Programming, Network Support

Systems: Linux, VirtualBox, VMware

Programming: C, Java, Python, JavaScript

Web/Backend: React, Vite, Spring Boot, HTML, CSS, Tailwind CSS, REST API, Axios

Database/Tools: MySQL, GitHub, Vercel, Render

Projects

Virtualized Network Infrastructure Deployment *Linux, VirtualBox, BIND9, C*

- Designed and deployed a virtualized network on Linux VM using a custom /24 IP addressing scheme.
- Configured BIND9 DNS with forward and reverse zone resolution.
- Set up an internal mail server and implemented TCP client-server communication in C.
- Logged session details including IP addresses and port numbers.

University LMS Course Web Portal *React, Spring Boot, MySQL*

- Developed a Learning Management System with full CRUD functionality.
- Built a responsive React frontend and Spring Boot backend integrated with MySQL.

Personal Technical Portfolio Website (In Progress) *React, Spring Boot, MySQL*

- Built a full stack portfolio to showcase projects and engineering skills.
- React frontend communicates with Spring Boot REST API via Axios.
- Planned future improvements include Docker, CI/CD, and admin dashboard features.

Other Academic Projects

Cache & Memory Hierarchy Analysis, Adaptive Modulation Technique, Vegetable Food Dryer – Thermal Control & Automation, AM Broadcast Receiver, Traffic Light System & Ripple Counter

Certifications

- Network Basics – Cisco Networking Academy
- Network Support & Security – Cisco Networking Academy
- PLCFI Workshop – Curtin University Colombo & SLIIT IEEE Student Branch (Feb 2026)
- Python for Beginners – University of Moratuwa
- Web Development – University of Moratuwa

Soft Skills

Analytical thinking, troubleshooting mindset, teamwork, and clear technical communication.
